PERFECT RANGE ANTI-SLIP GAME MAT

KIN-PRM

FOR XBOX 360® KINECT

The Xbox 360™ Kinect is the first of its kind in controller-free motion capture gaming. Make the most of this new technology with the Gaming Mat for the Xbox 360™ Kinect from CTA Digital. The beauty of the Gaming Mat is that it shows the defined area of Kinect's 1 and 2 player gaming zone, while protecting your floors and carpets and reducing noise. By placing the mat centered, 4' from the Kinect Camera, players can see a clear visual guide of the gaming area for a flawless Kinect experience. Without the mat's visual guide, gamers can easily find themselves outside the gaming zone. While playing a controller-free system it's also very easy to become misaligned with the camera, making it frustrating to again find the correct area and distance.

The Gaming Mat makes it incredibly easy to stay within Kinect's gaming zone, but also to find your way back once you've moved. It's also made of durable and comfortable foam, and includes an anti-slip material to keep the mat in place during intense gaming sessions. The Gaming Mat is compatible with all Kinect games and folds up to store easily in in the included storage bag. The stylish design and practical function of CTA Digital's Gaming Mat is sure to make the most of your Kinect gaming.

Features include:
- Padded protection for your floors and rugs.
- Durable, anti-slip material.
- Compatible with all Kinect games.

Package includes:
(1) 55" x 78" Gaming Mat for Kinect
(1) Game Mat Storage Bag
